NOTICE OF DECISION

A field examination conducted on May 7, 1992, of your gypsum mine on the B&J mining claim group found the west pit entrance blocked off, a new access road at the northeast side of the pit, a truck turnaround on the north side of the county road and an equipment approach or access on the north side of and encroaching on the overburden stockpiles. It has been determined that none of these changes are included in your approved plan of operations U67-P91-01.

You are not conducting your operations in accordance with your plan of operations and have therefore been found to be operating in noncompliance for failure to submit an amendment to your plan of operations prior to making the changes pursuant to 43 Code of Federal Regulations 3809.1-7.

You shall submit an amendment, including a map, to the San Rafael Area Office within 15 days from the date of this Notice of Noncompliance. The amendment shall address all changes, including measures necessary to alleviate the loss of overburden due to equipment traffic. Failure to comply with this notice of noncompliance shall result in your operation being bonded at the full reclamation cost.

You have the right to appeal to the Utah State Director, Bureau of Land Management, in accordance with 43 Code of Federal Regulations 3809.4 (1991 edition). If you exercise this right, your appeal, accompanied by a statement of reasons and any

arguments you wish to present, must be filed in writing at this office within 30 days after the date of this decision. This decision will remain in effect during the appeal unless a written request for a stay is granted.
